

Your Baptism Journey

*May Jesus who loves all children,
bless your precious little one(s)
with His love and grace.*

Have you read this book? It's a wonderful rhyming story about looking after the world around us; the Lorax may be the 1st eco warrior!

As Christians we believe God created the world, and has left it in our care. You may want to read the story of creation, which is found in most children's Bibles.

The Bible tells us to care for the world: **Genesis 2:15** The LORD God took the man and put him in the Garden of Eden to work it and take **care** of it.

We all want the best for our environment where our children will grow and play.

What could you **do** as a family this month to care for the world?

- Marvel at the beauty of a leaf or a flower.
- As a family visit a park and talk about the joy of being in green, clean, places.
- You could plant a seed or a larger plant, care for it and then watch it grow.

A prayer for you to pray for your child: Heavenly Father bless this precious child, help them to grow to appreciate the world you have created and care for it as you would want them to. Amen

A prayer we pray for you as parents: Loving Father God, bless these parents as they care for this precious child, give them endless patience and the space and time to appreciate your wonderful creation in both their child and the world in which they live. Amen

If you don't own this book you could borrow it from the church or the library. You could also watch the Disney movie Wall e, which has a similar theme.
